ROOM8

Deleting Your Data

Last updated: November 17, 2026

1. Delete your account yourself

Sign in to Room8, open Account, then Privacy & data, and choose Delete account. Your account is deleted straight away, together with your profile, picture, saved pieces, cart, addresses, follows, reviews, creator rooms and uploaded files.

If you have Room8 Pro, deleting your account also ends your subscription, so you are not charged again.

2. If you signed in with Google, GitHub or Facebook

Room8 only receives your name, email address and profile picture from these services. Deleting your Room8 account deletes that information and the link between the service and Room8.

You can also remove Room8 from the service itself: in Facebook, go to Settings & privacy, Settings, Apps and websites, and remove Room8; in Google, go to your Google Account, Security, Third-party apps & services; in GitHub, go to Settings, Applications, Authorized OAuth Apps. Removing it there stops Room8 receiving anything new, but does not delete your Room8 account; do step 1 for that.

3. If you can't sign in

Email room8big@gmail.com from the address on your account and ask us to delete it. We confirm it's you, delete the account within 30 days and reply when it's done.

4. What we keep

Past orders are kept, without your account, because the law requires us to keep tax and delivery records. Payment details are held by Stripe, not Room8 (see https://stripe.com/privacy). Everything else is deleted.
